-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 October 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

- Species 1 (Figures 1 and 10);
- Species 2 (Figures 25 and 26); and
- Species 3 (Figures 28 and 29).

The species are independent or distinct because: A) Species 1 and 2 comprise a "correction reflecting unit," which is not included in Species 3; B) Species 2 and 3 comprise an "importance calculating unit," which is not included in Species 1; and C) Species 3 comprises a "total score calculating unit," which is not included in Species 1 or 2.

Each of the elements that differentiate the species are important in that:

- The "correction reflecting unit" of Species 1 and 2 is used to display extracted mismatched links and the corresponding correction candidates to the user.
- The "importance calculating unit" of Species 2 and 3 is used to calculate an "importance value" for the extracted mismatched links and this value is used to determine how the links are displayed to the user.
- The "total score calculating unit" of Species 3 replaces the "correction reflecting unit" of Species 1 and 2 and is used to calculate the total score of the targeted site and output the total score to the user.

Although the Species 1, 2 and 3 are closely related, the differences between the species patentably distinguish each species from the others.

Because these inventions are independent or distinct for the reasons given above and the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, Claims 1-5, 11-32, 35-41, 45-47, 49, 53-74 and 77-79 are generic.

Applicant is advised that a reply to this requirement **must** include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
